

## How to open the 4m on the Yaesu FT-710?

1. Turn OFF the FT-710 AESS;
2. Press and hold the [FINE] and [MODE] keys while turning ON the transceiver, keep the buttons pressed for 1 sec.;
3. Release the buttons and the FT-710 AESS will turn OFF by itself and then turn back ON automatically;
4. The radio is now enabled for TX on the 5.250000 MHz – 5.406500 MHz and 70.000000 MHz – 70.499999 MHz.

The modification for TX continuous coverage on the FT-710 AESS is not yet available, we do not know as of now whether it will be made available anytime soon.
